**REQUILIBRIUM GROUP  
ALPHA AGUA SUSTENTABLE**

**MAGNETIC WATER CONDITIONERS**

## ABOUT US

**“COEXISTENCE IS LIVING”**, We are a group of Mexican companies, originated in Europe and named: Reequilibrium Group, which is created with the conviction of working to recover re-balance and stabilize what is out of balance.

Reequilibrium Group will live, operate, invest, learn, study and teach with the ideal that we have almost lost; to respect our planet, the environment and the living beings with which we share.

## OUR PRODUCTS

### WATER MAGNETIC CONDITIONERS

- A cylindrical stainless steel or PVC device which uses magnetic fields produced with permanent magnets to promote a physical treatment to water.
- The water is magnetically conditioned providing greater solubility to the minerals to avoid incrustations in any process through which water travels.
- It provides a serie of physical and chemical changes, that have a favorable impact on several industrial, agricultural and domestic systems.

## APPLICATION AREAS

- **Commercial**
- **Residential**
- **Industrial**
- **Agricultural**

## RESIDENTIAL USE

Benefits to: Heaters, air conditioners, garden irrigations, showers, sanitary, coffee machines, dish washers, etc.

## INDUSTRIAL USE

Benefits to: boilers, heaters, evaporators, condensers, cooling and distillation towers, cooling systems, heat exchangers, pasteurized distillers, sterilizers, autoclaves, reverse osmosis, etc.

## AGRICULTURAL USE

Benefits to: Agricultural drip irrigation, pivots, sprinkling, greenhouses or shade houses, condensers, cooling towers, animal drinking water, aquaponics and fish farming.

## WHY CHOOSE US?

### **We adapt to your needs**

Conditioners are designed and constructed for small scale use in a house or even large-scale use, for example, for irrigation of a golf course.

### **No pipe incrustations**

Prevents pipe scale deposits, resulting in a lower maintenance cost and less use of chemical products.

### **Long useful life**

The conditioners have an unlimited useful life, since they are built out of stainless steel, which have a long useful life and permanent magnets with a useful life up of more than 50 years.

### **No electrical energy needed.**

There is no need of electrical energy, its function is powered by the magnetic energy from the inside permanent magnets.

**Using water magnetic conditioners, you maintain the efficiency of your equipment saving operation and maintenance costs as well as energy costs, operating sustainably respecting the environment.**
